

## Features

- 24x7x365 Remote Access to Your Store's Information
- Customer Marketing: Gift and Loyalty Programs
- Centralized Inventory Management
- Employee Management: Track and Manage Labor Costs
- Detailed Business Reporting to Easily and Remotely Monitor and Manage Your Retail Store

## Maintenance Free

pcAmerica can host and manage your data, eliminating the need for you to manage your own expensive servers and network.

## Cash Register Express<sup>™</sup>

The existing software at your stores sends data to the web portal so you can work from a remote location.

## The pcAmerica Web Portal

*Web-based Management System for Independent Retailers*

### The pcAmerica Web Portal

is an Internet-based system that retrieves data from Cash Register Express<sup>™</sup> allowing users to run reports, change prices, create purchase orders, manage employee labor and perform several other back-office tasks from a web browser on any computer with Internet access. The pcAmerica Web Portal is an ASP (Application Service Provider) based system that works with your existing POS system making it the perfect solution for retail stores that need to easily monitor and manage their business from home or remote location.

## How Can a Retail Store Benefit from a Web-Based Management System?

The pcAmerica Web Portal is a web-based suite of reporting, inventory, employee, labor and management tools that is accessible from any computer with Internet access. The secure standards and modern technology employed by the pcAmerica Web Portal introduce the following benefits to your retail store:

- Web-based interface allows you to access your store's information from anywhere at anytime
- Automated, off-site data retention of your retail store's crucial data
- No expensive servers and software to maintain. System management performed 100% by pcAmerica
- Works with any always-on Internet connection such as cable or DSL
- The stores continue to function at 100% even if the Internet connection is down

# The pcAmerica Web Portal

Web-based Management System for Independent Retailers

## → Simple, Easy & Accessible

The pcAmerica Web Portal is hosted and maintained by pcAmerica. It is easy to activate, learn and use and information can be securely accessed from any computer with Internet access.

## → Pricing\*

Our web-based management system pricing is module based. Available modules include:

- Reporting and Data Retention \$20
- Inventory Management \$10
- Interstore Transfer \$10
- Employee Management with Security Permissions \$10

\*Sign-up fees apply. Pricing is per store per month with a 12 month pre-paid contract.

## → Centralized Inventory Management

The pcAmerica Web Portal allows you to remotely manage your inventory and pricing. You can add new items and delete items that you no longer sell, maintain lists of vendors and inventory pricing, generate purchase orders, and change the tax rates for specific items. New inventory will be sent to the store in near-real-time. You can also change prices, sales pricing and change item properties remotely.

## → Employee Management: Track and Manage Labor Costs from a Remote Location

The pcAmerica Web Portal allows you to store employee records and view labor schedules away from the store to ensure the most efficient return on your labor. You can create or modify employee records and security settings. In addition you can remotely run detailed business reports like employee hours, wages, commissions, and payroll. You can also print labor schedule reports and configure your point of sale system to allow only scheduled workers to clock in.

## → Detailed Business Reporting: Easily Monitor and Manage Your Business Remotely

The pcAmerica Web Portal Reporting delivers crucial numbers and data that you need to efficiently run your store no matter where you are. There are a variety of reports including sales and profits reports, product mix reports, inventory activity reports, and employee performance and labor statistics.

## → 24x7x365 Access to Store Information

The pcAmerica Web Portal is an Internet-based system that is accessible from any computer at any location that has Internet access. It is hosted and maintained by pcAmerica, which frees you from the hassle and costs of maintaining your own Internet server. Access your store's information 24x7x365 by logging in with your user name and password.

Rank	Item Name	Item Number	Sales	% of Sales
1	CHRY	1001	\$10,000.00	10.00%
2	CHRY	1002	\$8,000.00	8.00%
3	CHRY	1003	\$6,000.00	6.00%
4	CHRY	1004	\$4,000.00	4.00%
5	CHRY	1005	\$2,000.00	2.00%
